

CONNECTIONS

Here are some ideas to help make a connection at home with your child's library class.

- 1) Share with your child a biography of one of your favorite people (athlete, movie star, politician, etc.).
- 2) Ask your child about Chris Paul's determination and how he overcame being "too small".
- 3) Share with your child an experience in your life where you were discouraged by others, but refused to give up on your goal.
